A.T.E. partners with Godrej Consoveyo to bring world-class intelligent storage, movement and handling technology in India.

A.T.E. has joined hands with Godrej Consoveyo – pioneer and leader in offering Automated Intra-logistics solutions in India. The company offers end-to-end solutions in intra-logistic automation for various industry segments such as Pharmaceuticals, Chemicals, Agro-Chemicals, Food & Beverages, Textile, Paper, Paints, Automotive, Railways and Defense. A.T.E. will promote GCLA's products in India, effective from March 2018.

Godrej Consoveyo Logistics Automation Ltd. (formerly Godrej Efacec Automation and Robotics Ltd.) is a joint venture between Godrej & Boyce Mfg. Co. Ltd. and Consoveyo S.A. (acquired by Körber AG, Germany), offering intelligent storage, movement and handling solutions in intra-logistics domain. GCLA offers technologically advanced customized solutions to meet the client requirements.

As textile being one of fastest growing market for ASRS range of solution. Warehouse throughput, large no of variants and manpower availability are major concern for any textile company in India and Godrej have solutions which can add value in these areas. A.T.E.partnering with Godrej will make possible to expand market for ASRS as A.T.E. are already present in all textile pockets in India and Godrej being good brand value. With this partnership A.T.E. will be able to penetrate textile segment to design greater warehousing solution for textile customers.
