

Attention Textiles & Garment Professionals!!

Save your dates for joining Mega Techno-Conferences at NITRA!

The Joint Technological Conference (JTC) is an annual feature of four premier textile research associations ATIRA, BTRA, SITRA and NITRA. This year NITRA is hosting the 58th version of this mega conference at its campus in national capital region Ghaziabad near Delhi on **Friday, 15th of February, 2019**.

JTC is a prestigious conference in which the delegates from all over the country are participating. Major R&D highlights, carried out during last one year, in the areas of spinning, weaving, chemical processing, apparel manufacturing, home textiles, technical textiles and other related areas are presented and deliberated by core researchers and seasoned professionals in the form of technical papers. The professionals engaged in textile and apparel industry will reap rich harvest by taking part in this mega conference.

As an added attraction, NITRA is organizing another very interesting event **Tech-Tex: A Conference on Protective & Automotive Textiles** on the following day i.e. on **Saturday, 16th of February, 2019** at the same venue. Without doubt, participating in both the events is a once-in-a-blue-moon opportunity for entrepreneurs and professionals to enrich their knowledge both in conventional textiles as well as in the most emerging area of textiles
