

The 20th Zhejiang International Trade Fair For Textile and Garment Industry (ZhejiangTex 2019)
16-18 May 2019
Yiwu International Expo Centre, Zhejiang, China

ZheJiangTex returns in May 2019

Smart Textile and Garment Technology - Smart Life Style

Since the global economy has inevitably been affected by the US-China trade war, there is an increased demand for textile and apparel machinery in a number of Southeast Asian countries, including India, Bangladesh, Vietnam, Cambodia and Pakistan, etc. At the same time, the declining competitiveness of traditional products is widely recognized by the global textile industry, more intelligent equipment and machinery is needed to further expedite the digital transformation of manufacturing, thereby enhance productivity and improve product quality.

Yiwu, surrounded by many textile manufacturer clusters, is a major city for clothing manufacturing in East China's Zhejiang Province. From 2017 to 2020, the Chinese Government invests approximately RMB 30 million of special funds to facilitate the development of Zhejiang's industry. Since Yiwu is world famous for its big production of hosiery, knitwear, seamless clothing and textile, attracting numerous of manufacturers in the countries and regions along the Belt and Road to purchase machines and equipment from there. There are around 500,000 foreign merchants source in Yiwu every year.

The upcoming 20th anniversary of **ZheJiang International Trade Fair For Textile and Garment Industry (ZhejiangTex 2019)** will reach a new height with the support of Zhejiang Province Economic and Information Committee and Yiwu Municipal Government. ZhejiangTex 2019 is committed to providing tremendous business opportunities and fostering new ideas to drive digital transformation for the textile industry. Under the theme of "Smart Textile and Garment Technology - Smart Life Style", ZhejiangTex 2019 will be grandly held on **16-18 May 2019** at **Yiwu International Expo Centre** in Zhejiang. It is expected to gather more than 350 exhibitors to showcase the newest technologies and most innovative products, ranging from raw materials, designs to textile and fashion related products, creating a one-stop information and trading platform to lead the future of textile and fashion industries.
