Rüti Textil

A short introduction

- **Rüti Textil** is a new company founded in 2016 and located near Rüti, it owns various patents and the registered trademark Rüti Textil
- We bring machines of the brands **Sulzer Rüti** and **Sulzer Textil** up to date with a new conversion concept based on the possibilities of industry 4.0
- My name is Gianfranco Di Natale, founder and main shareholder of Rüti Textil
- Since 22 years a technology nerd of which

  over 16 years in the development of weaving machines thereof

  12 years Sulzer Rüti/ Textil (G6200, P7150/7250, P7300/7300HP)

Motivation

- The quality, functionality and uniqueness of Sulzer Rüti and Sulzer Textil machines are exceptional
- E.g. over 150’000 projectile weaving machines have been produced
- Many have been in use for over 30 years and can easily produce another 30 to 40 years

How can this enormous potential be better exploited?

Our products

- Conversion kit with modules that optimize selected areas of the machine
- The modules function independently, but can also be combined as desired
- Modules are individually adapted to the customer's needs
- You achieve
  - more performance
  - better fabric quality
  - relief of the weaving machine itself
- We are leading high-quality technology into the next generation

Rüti Textil Innovations at the ITMA Barcelona

D12 Projectile, 35.5g

Picking lever

Weft tensioner

RT Gripper Set

(based on G6200)

- For weft insertion of delicate technical yarns
- Modularly mounted on various rapier machines
- Standard, light and abrasive robust version

RT12light Projectile, 23.5g

RT12heavy Projectile, 47.5g

RT Picking lever

- reduction of mass inertia

RT Weft tensioner

- reduction of mass inertia
- big cam, gentle movement
