Bräcker at ShanghaiTex 2019

Bräcker presents a new traveller with up to 50% longer lifetime and shorter running-in period. This is only one highlight out of the impressing product variety.

A novelty Bräcker shows at ShanghaiTex is the new CARBO traveller for ring spinning machines. It is specially designed for man-made fiber spinners. CARBO is a new coating technology which improves the sliding properties. This results in up to 50% longer lifetime and a shorter running-in period. Recommended applications next to man-made fibers are also their blends, core yarns and all yarn counts.

In addition, Bräcker exhibits its well-known portfolio of high-quality products which meets the continually rising demands on the textile market like higher speeds and productivity. The rings and travellers offer long service lives, lowest yarn breaks and no thermal damages when processing man-made fibers.

See for yourself the many advantages on offer from Bräcker: Visit us at ShanghaiTex from November 25 to 28, 2019, in the New International Expo Centre: Hall E1, Booth A30.

Detailed information on Bräcker's innovations and access for downloading the images are available online at www.bracker.ch/news/.

About Rieter
Rieter is the world's leading supplier of systems for short-staple fiber spinning. Based in Winterthur (Switzerland), the company develops and manufactures machinery, systems and components used to convert natural and man-made fibers and their blends into yarns. Rieter is the only supplier worldwide to cover spinning preparation processes as well as all four end spinning processes currently established on the market. Furthermore, Rieter is a leader in the field of precision winding machines. With 16 manufacturing locations in ten countries, the company employs a global workforce of some 4 740, about 20% of whom are based in Switzerland. Rieter is listed on the SIX Swiss Exchange under ticker symbol RIEN. www.rieter.com

About Bräcker
Bräcker, the world's leading supplier of rings and travellers for ring spinning systems, is a subsidiary of the Rieter Group. Bräcker, based in Pfäffikon ZH (Switzerland), creates customer value through system expertise, innovative solutions, after sales excellence and global presence. The company manufactures its main products – rings and travellers for ring spinning machines – in Pfäffikon and Wintzenheim (France). In addition, Bräcker offers grinding machines used for maintenance of cots. www.bracker.ch
