Automotive Nonwovens: *At the forefront of new mobility*

A new publication from Textile Media Services – ***Automotive Nonwovens:*** *At the forefront of new mobility* (3rd edition) – provides the latest analysis of the fast-altering automotive nonwovens industry.

Featuring an overview of the automotive market and the wide-ranging use of nonwoven materials in vehicles, this fully updated edition examines in detail the current global structure of this industry, with profiles of more than 50 of the most influential Tier 1 and Tier 2 players that use nonwovens in automotive applications, and explains where the growth will be in the next 25 years, and why.

Published in March 2020 and written by Adrian Wilson, this in-depth report with around 250 pages and 90 tables:

- examines the global automotive industry;
- defines automotive nonwovens;
- identifies key areas of application;
- contains profiles of more than 50 key users and producers of automotive nonwovens.
