60th Dornbirn GFC 2021, 15 – 17. September WEBINAR WEEK

The 60th anniversary of the Dornbirn GFC Congress will take place virtually this year for well-known reasons.
Nevertheless, one will be surprised by the highly interactive platform offering a wide range of services to the participants.
Outstanding new ideas will create a *"live feeling"* during the congress, motivate networking and promote a unique learning experience.

Top experts from industry and research present the latest scientific results. 90 lecture slots have already been allocated. Lectures will take place in parallel in 2 lecture halls. Panel discussions, breakout sessions and virtual meeting lounges provide opportunities for networking and information exchange. A virtual exhibition area with 25 exhibitors will also be offered.

Dornbirn GFC 2021 Topics:

 # fibre innovations

 # Sustainability and Circular Economy

 # Nonwovens and technical textiles

 # Surface modifications and additives

Thanks to our ambitious partners and sponsors, we are able to attract a global audience. This will foster the global exchange of ideas and innovations in the fibre industry and along the value chain of textiles and nonwovens.

The premiere of our **1st Dornbirn GFC-Asia** was a complete success!
More than 200 participants took part in our online event in Korea. Within 2 days 32 high quality presentations were offered. It was an excellent merging of lectures from the Western and Eastern world, which generated a tremendous exchange of knowledge and interaction during and after the congress. The dedicated collaboration with Dyetec and KOFOTI from Korea made this possible.
