Istanbul International Textile Machinery Fair TME dates in September 2021

The Turkish textile industry, while compiling its efforts to meet the increasing demand during the pandemic, will finalize its coming investments on September 8-11, 2021 with the TME fair.

Turkish textile manufacturers once again proved their influence attaches to production. According to the export figures announced during the pandemic process, it has achieved a 42% increase in the first quarter of 2021 compared to the same period of the previous year. Unlike countries experiencing difficulties in the pandemic, Turkey sustained its efforts with rising imports and exports of machinery without slowing down. While turning the challenge into seamless opportunity, the Turkish textile industry continued its production by accepting shifting orders from the Far East and Asia. New machinery investments of Turkish textile manufacturers increased by 34% compared to the previous year and exceeded the level of 1.5 billion dollars. The Meeting Point of the Textile Industry, Istanbul Textile Machinery Fair TME Istanbul International Textile Machinery Fair TME will bring world textile sector together between 8th and 11th of September in a total area of 250.000m2 and with its 11 fair hall, at the biggest fair center of Turkey. Textile machinery manufacturers led by Turkey will meet their visitors coming from the regions where growing amount of production recorded as such Uzbekistan, Bangladesh, Egypt, Pakistan and Indonesia.

Wide Participatory Concept Will Attract Interest

Strong disposition of Turkish textile manufacturers about increasing new investment and capacity will support both local and international textile machinery manufacturers to control one of the biggest markets during pandemic. Companies wishing to maintain its market dominance already reserved their spaces at the fairground prior to the actual fair by pre-reservation.
