World Textile Technology Leaders are Ready for the Great ITM 2022 Meeting

ITM 2022, which will be held at Istanbul Tüyap Fair and Congress Center on 14-18 June 2022, will be the first and largest international textile machinery exhibition to be held after a 3-year break. The leading brands of world textile technologies will launch their latest machines at ITM 2022.

The textile industry, which is among the leading sectors in Turkey's exports, demonstrated its power to the whole world, especially during the pandemic outbreak period. Achieving an increase of up to 40 percent in exports of textiles and raw materials, Turkey also broke records after records in medical textile, technical textile, and indoor textile exports.

Turkey Made A Strong Impression on with Its Production Performance During the Pandemic Process

Ranking in the top three in the most important market for the European textile machinery manufacturers, Turkey also attracted attention with its production performance during the troublesome pandemic outbreak. Many European machinery manufacturers, who spoke highly of Turkey's performance, announced that their machinery sales to Turkey increased in 2020 and 2021. Turkish textile companies, which increase their production capacity because they were unable to keep up with the demands, continue their new investments and modernizations.

Investors from Europe, Asia and Turkic Republics will Prefer ITM 2022

ITM 2022 Exhibition, will make significant contributions to the success of the Turkish textile industry in production and exports. The textile machinery industry will make a big leap forward with the latest technologies to be introduced at ITM 2022 and new investment decisions will be taken. Trade committees and textile investors from many countries where textile production is active such as Pakistan, Bangladesh, Uzbekistan, India, and Egypt will prefer ITM 2022 Exhibition. Thanks to the machinery sales and business partnerships of manufacturers from all over the world, exhibition will create a great vitality in the Turkish and world economy.

Companies Developing New Products During Pandemic will Meet at ITM 2022

Many companies focusing on product development and innovations under pandemic conditions look forward to the ITM 2022 Exhibition to present their products to the market and introduce them to their customers personally. ITM 2022 Exhibition, where world textile machinery manufacturers and investors will meet, will steer the textile machinery sector in terms of launches and new ideas to be developed by the companies. Thousands of visitors from Europe, Central Asia, and Arab countries, especially from the Turkic Republics, will visit the ITM 2022 Exhibition to be informed about the latest trends in textile machinery.

Leading Brands of Weaving Machines Will World Launch at ITM 2022

Leading brands of textile technologies such as Picanol, Itema, Toyota, Saurer, Rieter and Trützschler are among the companies that will exhibit their latest innovations at the ITM 2022. Saying that “We foresee a significant growth for the Turkish textile industry in the coming years,” Erwin Devloo, Picanol Marketing and Communication Manager continued as follows: “ITM 2022 will be the first international textile machinery exhibition where the recently introduced novelties will be on display: PicConnect, OmniPlus-i Connect and OptiMax-i Connect.”

Itema Sales Director Ferdinando De Micheli said, “The ITM 2022 Exhibition will be the first exhibition after the long forced stop caused by the pandemic. That's why ITM 2022 will provide the perfect stage to present all the latest innovations we've been working on over the last two years.”

Toyota has announced that it will introduce its latest model in Air-Jet technology at ITM 2022. Toyota Operations Director Markus Lichtenstein, said; “Our expectations from ITM are always high as Turkey has become one of our most important markets in the world.”

Yarn Machinery Manufacturers Will Exhibit Their New Generation Technologies

Saying “Turkey has always been one of the most important textile markets for us.”, Head of Global Marketing of Trützschler Group Dr.Bettina Temath continued as follows: “We observed an outstanding demand for our latest spinning preparation machinery solutions in Turkey. At the ITM 2022, we will introduce our newly developed combing machine TCO 21.”

Explaning that “Considering the importance of the Turkish textile market, ITM is an excellent platform to meet our customers and influences the whole region,” Pia Terasa, Head of Marketing and Market Intelligence Saurer Spinning Solutions, said that they will introduce the Autocoro 10 open-end spinning machine to the visitors at ITM 2022.

Underlining that the ITM 2022 Exhibition is the organization that will bring together the best and the newest in the industry, Rieter CEO Norbert Klapper said, “We look forward to a stunning display of the latest in yarn manufacturing technology that is both good for business and good for the planet.”

Latest Innovations in Finishing Technologies Will Be Presented at ITM 2022

Reminding that a brand new stenter machine, which is the 4th Generation of EFFE Pasha Stenter Machine, counts the days to meet the end users, İhsan Mokanoğlu, EFFE Makine Endüstri Tic. A.S. General Manager and Member of the Board gave the following information about the machines they will launch at ITM 2022: “We will also launch the Steaming Machine, 3 of which we have produced so far and 2 of which are on the production line, at the ITM 2022 Exhibition. Moreover, a new machine will be presented to the customers at the exhibition. We are getting ready to present a machine that is very familiar to users with the EFFE vision and production approach to our customers.”

Reminding that ITM 2022 will be the first international textile machinery exhibition to be held after a long break, Halis Gencer, Tachyon Sales and Marketing Manager said, “We will be at the exhibition with the innovations we carried out on Pura, the world's most effective bleaching machine, and Circum Dye, our rope washing machine.”

“ITM 2022 will be a basis for the development of cooperation between textile machinery manufacturers and suppliers, and a successful exhibition where the demands of the visitors will be met.” Demsan Export Manager Tuncay Demirci commented. “We are planning to attend the ITM 2022 with our newly designed packaging machine and fabric quality control roll wrapping machines.” he said.

ITM 2022 Prepares to Set New Records

ITM 2022 Exhibition will be held in Istanbul Tüyap Exhibition and Congress Center between 14 and 18 June 2022 in cooperation with TEMSAD and in partnership with Tüyap Tüm Fuarcılık Inc. and Teknik Exhibitions Inc. The latest ITM Exhibition hosted the world textile industry with 1200 exhibitors from 64 countries and 60,000 visitors from 94 countries. ITM 2022 Exhibition will set new records as one of the most important global organizations to be organized after the pandemic outbreak period. The latest technologies and new products that will be exhibited at the ITM 2022 Exhibition will meet with textile investors from all over the world.
