BINGO®

beyond the limits of traditional technology

CRAFTY
the new dyeing system with Indigo and Sulphur colors

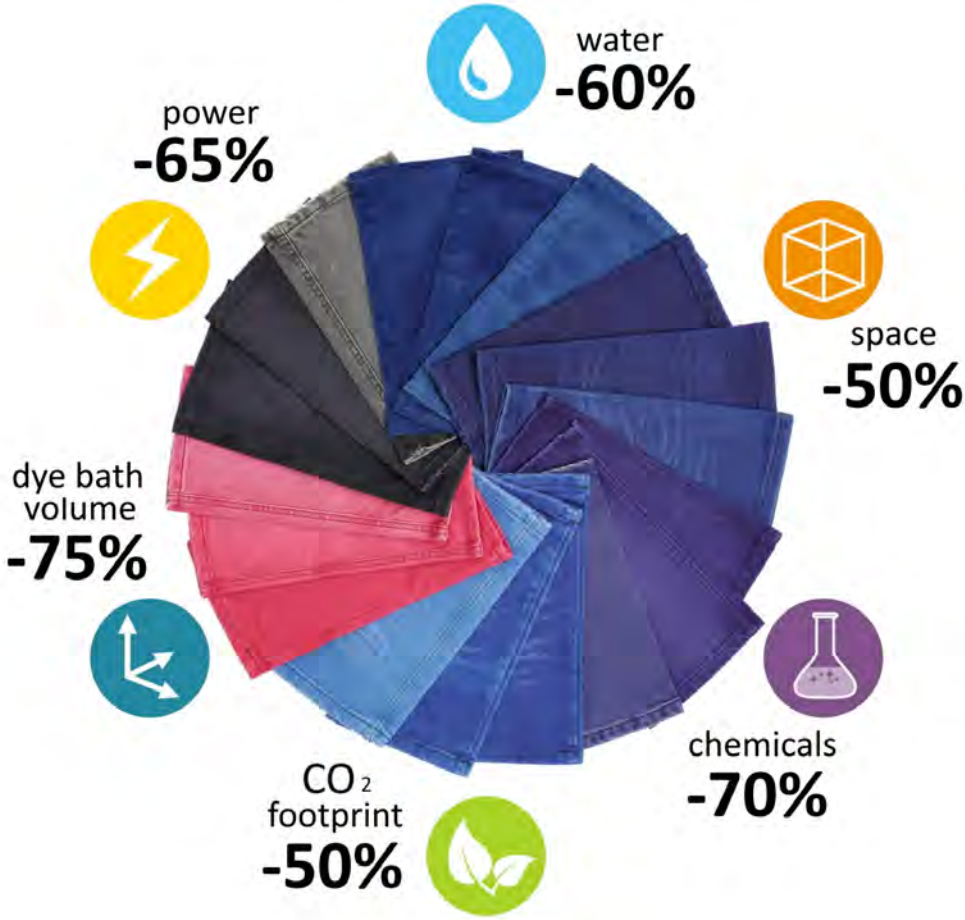

master
in Indigo Dyeing Machines

the most modern and sustainable technology

An ingenious mini-line based on only three compartments, operating the fabric in alternate directions, running the dyeing process in Nitrogen inert atmosphere adopting the most revolutionary, innovative, ecological and economical technology for the future.

Bingo (Pat.) is unique, simple and versatile. It goes beyond the limits of traditional technology bringing innovation in products and processes, reducing consumptions and costs, assuring the highest level of sustainability.
