

Continuous Passion of Creativity in Fashion Industry, Will Drive Good Business of High-Speed Sample Warping Machines.

**Mr. Haresh Panchal, MD
Rabatex Industries Pvt. Ltd.**

1) Present Status of Rabatex?

Rabatex Comments: At present Rabatex is having good Nos. of orders under execution and rapidly increasing its tally of 3200 + sectional warping machines and 5600 + material handling trolleys so far.

Maintaining its prime position in above product segment, newly developed fabric sampling solution machineries consisting of Cone to Cone sizing machine/Sample warping machines for normal weaving width and smaller weaving width of 20 "/ smaller width of 20" sample weaving machine is getting very good response with orders from Domestic and global market.

2) How do you see trends in case of Warping Machinery?

Rabatex Comments: following are the decisive factors for higher demand of sectional warping machine, I - Higher cost and uncertainty of cotton raw material is diverting weavers to man-made/ synthetic yarn weaving, II - Good potential in Technical Textile across multi segment e.g - Geo / construction/Medical/ Agriculture/ special featured apparel/industrial fabric for various usage III - continuous passion of creativity in fashion industry, will drive good business of high-speed sample warping machines.

3)How do you see Rabatex from the year 2023-2025?

Rabatex Comments: with its leadership in sectional warping machines and material handling and storage equipment, clubbed with latest inclusion of Fabric sampling solution machineries and VERTICAL LIFT MODULE - an automated storage system in ASRS segment will take Rabatex to new height with very good business volume in domestic and global market.

4) Yours Expectations from India ITME 2022?

Rabatex Comments:- Considering ITME potential and wide reach, Rabatex decided to be "GOLD SPONSOR "having display area of 24-meter x 15 meter = 360 square meter, RABATEX is exhibiting its complete range of products to widen footprint globally.

With presence of our domestic and global marketing network and long associated business relation across the entire tiers of industry - from corporate to small size industry, expecting good response, Which were the case in all previous exhibition participation.
