COLORJET Launches METRO NXT at India ITME 2022.

COLORJET GROUP launched METRO NXT, High Quality, and High Speed digital Textile printer on the third day of **India ITME 2022.**

Mr. Madhu Sudan Dadu – Chairman, Mr. Arun Varshney - Vice President and Business Head Textiles Business and Mr. Smarth Bansal – GM – Product/Brand Management, ColorJet Group along with their print head partner Mr Hironobu Fujihashi – General Manager and Mr. Anshul Prashar - Deputy Senior Marketing Manager, Kyocera Asia unveiled the High Speed, High Quality Direct to Fabric Digital Textile Printer - Metro Nxt at India ITME 2022..

Metro Nxt is an industrial textile printer that combines digital advantages of high speed incorporating 32 industrial grade Kyocera print heads with high quality print using ColorJet recommended inks. Available in configuration of 8 Color options with speeds reaching Up to 9,000 sqm/day.

Mr. Madhu Sudan Dadu – Chairman, ColorJet Group said, *"The new Metro NXT will bring a new dimension to the existing portfolio of machine providing a high productive solution to big Textile mills, processing houses, exporters who are looking for high production along with High precision printing.*

Mr Hironobu Fujihashi – General Manager Kyocera Asia said,

"I am expecting the future of the digital printing for textile.
Digital printing, which uses less ink and water, is a promising technology not only for the textile industry but also for humanity as a whole, from the perspective of reducing the environmental

pollution and from the perspective of sustainable development Goals, which are to reduce unsold and discarded textiles and produce what is needed when needed.
We are very excited that the company has emerged in India that can make such a high performance Digital inkjet printer for textile application."

METRO NXT addresses various market segments such as fashion apparels (Women's, Men's, and Kids clothing), home furnishings (Curtains, Bedsheets, and Sofa Covers), etc. and use to print Shirts, Skirts, Scarves, and Sarees. METRO NXT prints on Cotton, Viscose, Polyester, Polyamide, Silk, and Wool and is suited for the production of high-quality products as well as home decoration fabrics.
