

Acquisition

Oerlikon Signs Agreement to Acquire Riri; Builds Leadership Position in Luxury Market

Oerlikon announced that it has signed a definitive agreement to acquire Riri, a leading provider of coated metal accessories for the luxury fashion industry. This transaction marks a milestone in Oerlikon's growth strategy and diversifies Surface Solutions' offerings and market access. The transaction is expected to close in the first quarter 2023, subject to regulatory approvals and standard closing conditions.

"Riri is highly complementary to our existing luxury business and will reinforce our fashion jewelry and metallic components for leather goods. It is the ideal next step after our acquisition of Coeurdor in 2021 and will make us a market leader and an integrated provider with a complete offering of coated luxury metalware for high-end fashion brands," said Michael Suess, Executive Chairman, Oerlikon. "The acquisition will drive cross-selling and strengthen our footprint in the global luxury metalware market, which sees mid- to-high single-digit growth rates annually."

"Our portfolio, particularly in zippers and buttons, is an excellent fit to Oerlikon's strengths in coated metal-based fashion components. Together, we are ideally positioned in Italy and France – the two major European fashion hubs – and can provide a complete offering to fashion customers," said Renato Usoni, CEO, Riri. "We are excited to join Oerlikon as it will allow us to accelerate the luxury goods industry's sustainability transition to greener technology by applying technologies such as Oerlikon's PVD¹."

Riri, headquartered in Mendrisio, Switzerland, is a market leader in metal accessories manufacturing, with a wide product range and unique offering. The company supplies global leading brands in the luxury fashion industry and has a strong foothold in the Italian luxury market. The company has more than 1 100 employees and expects to generate sales of EUR ~170 million (CHF ~165 million) in 2022.

About Oerlikon

Oerlikon (SIX: OERL) is a global innovation powerhouse for surface engineering, polymer processing and additive manufacturing. The Group's solutions and comprehensive services, together with its advanced materials, improve and maximize the performance, function, design and sustainability of its customers' products and manufacturing processes in key industries. Pioneering technology for decades, everything Oerlikon invents and does is guided by its passion to support customers' goals and foster a sustainable world. Headquartered in Pfaeffikon, Switzerland, the Group operates its business in two divisions – Surface Solutions and Polymer Processing Solutions. It has a global footprint of more than 12 000 employees at 202 locations in 37 countries and generated sales of CHF 2.65 billion in 2021.

¹ PVD, or physical vapor deposition, coating is a thin-film coating solution that is more environmentally friendly than traditional processes such as chrome plating.

About Riri

The Riri Group, leader in metal accessories manufacturing, stands out in terms of product range and unique offer, thanks to its five distinctive brands: Riri, a reference point for metal and plastic zippers; Cobrax, well-known producer of press buttons, jeans buttons and rivets; Cobrax Metal Hub and DMC, specialized in the design, development and production of metal components for leathersgoods; Amom, a company focused on the accessories sector for footwear and clothing and on fashion jewels. The high quality of its productions, season after season, supported by constant innovation, by an unmistakable personalisation of details and by the continuous search for excellence, makes the Riri Group a preferred choice for many influential brands in the fashion, luxury accessory, outdoor and denim industry. A multi-brand strategy and its dedicated production plants in Mendrisio, Padua, Tirano (Sondrio), Poggio a Caiano (Prato), Scarperia and San Piero a Sieve (Florence), Badia al Pino (Arezzo) and Palazzolo (Brescia) guarantee sufficient production to meet the multi-faceted style requirements of all customers.
