Stäubli Showcases at SITEX 2024, Surat

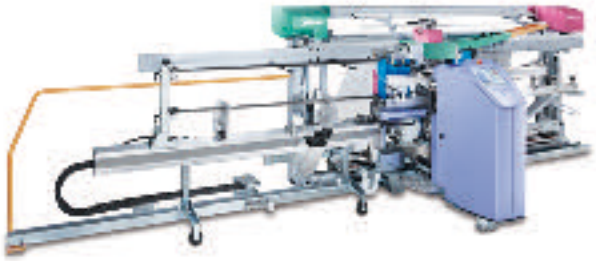

Join Stäubli at the SITEX trade fair from January 6-8, 2024, at the Surat International Exhibition and Convention Centre, where they will exhibit advanced weaving technology at Booth 256. As a key player in Jacquard technology, Stäubli offers solutions that serve the diverse needs of Indian weaving mills, known for their high productivity and energy efficiency.

LX PRO Jacquard machine.

S1692 cam motion

SAFIR S32 automatic drawing-in machine

Discover the LX PRO Jacquard machine, featuring the latest in data transmission reliability and energy-saving components, reflecting Stäubli's commitment to innovation. Explore a variety of high-speed weaving solutions, including the S3000 / S3200 dobby series and the S1692 cam motion, each designed for longevity and maintenance efficiency.

Stäubli leads in automated weaving preparation, offering tying machines and the SAFIR automatic drawing-in machines equipped with AWC 2.0 technology for enhanced warp processing. Visit the Stäubli booth to experience the future of automated weaving technology firsthand.

About Stäubli

A global mechatronics leader, Stäubli boasts over 130 years of expertise in the weaving industry, with a strong footprint in India since 1993. The company delivers not just machinery, but a full spectrum of support including maintenance, training, and spare parts, ensuring their solutions continue to drive the Indian textile industry forward.
