

Texprocess 2024: Vital Hub For Industry Innovation And Networking

Texprocess is the leading international trade fair for the processing textile and flexible materials and the most important global meeting place for the apparel industry and textile processing sectors. It will be organized **from 23rd to 26th April 2024 in Frankfurt, Germany.**

Exhibitors from over 40 countries will be here in Frankfurt to present their latest machinery, equipment, technologies and services as well as IT and logistics solutions. Innovations are presented to the public at Texprocess. The spectrum of products and services at Texprocess covers all process stages within the textile value creation chain – from design, cutting room and CAD/CAM through preparation for processing to the actual processing technologies themselves.

Texprocess is co-sponsored by the VDMA Textile Care, Fabric and Leather Technology Association. Techtexsil, the international trade fair for technical textiles and nonwovens, will take place concurrent to Texprocess from 23 – 26 April 2024.
