

# COLORJET GROUP HONoured WITH TMMA SPECIAL EXPORT AWARD FOR 2023-24

ColorJet Group highlighted its R&D strength by winning honored prestigious **TMMA Special Export Award** in the **Processing Machinery Sector** for the year 2023-24. This esteemed recognition was officially presented at the **64th Annual General Meeting** of the **Textile Machinery Manufacturers' Association (India)**, held on Thursday, 19th September 2024, in Mumbai. The award was received by **Mr. Aditya Dadu**, Associate Vice President and Business Head of ColorJet Group.

The Textile Machinery Manufacturers' Association (India), a key institution representing the interests and developments of the textile machinery sector, annually hosts its Export and R&D Awards to honor companies that demonstrate excellence in driving the growth of India's textile machinery industry. The awards spotlight companies that have significantly contributed to expanding the country's export footprint while advancing innovation in research and development. This year's awards recognized outstanding achievements for the year 2023-24,

with a particular emphasis on innovations that help India strengthen its standing in the competitive global textile market.

ColorJet Group's receipt of the **Special Export Award** highlights its strategic focus on expanding its global market presence. With a solid export strategy and customer-centric products, the company has forged strong international partnerships while consistently delivering top-notch printing solutions. Among five other leading contenders in this category, ColorJet's achievement stands out. Over the years, ColorJet has solidified its position as a key player in various international markets, driven by its advanced technologies and commitment to high-quality manufacturing standards.

Furthermore, ColorJet also secured the **R&D Award** for the development of its innovative **Earth 32 Pigment Series**. This pioneering product represents a major leap forward in eco-friendly textile printing solutions, demonstrating the company's dedication to sustainable and environmentally responsible technologies. The Earth 32 Pigment Series is eminent for offering superior performance while significantly reducing environmental impact, strengthening ColorJet position as a forerunner in the sustainable printing movement.

Speaking at the occasion, **Mr. Aditya Dadu** remarked, "This significant achievement reflects our ongoing dedication to pioneering research and development and delivering cutting-edge innovations. The ColorJet Group's focus on research and development remains unwavering as we push the boundaries of innovation, underscoring our commitment to providing state-of-the-art digital printing solutions. These accolades are a testament to ColorJet's relentless pursuit of excellence, reinforcing our position as a leader in the industry. We are committed to continuously pushing the boundaries of technology to provide our customers with the best possible solutions."
