

ATEXCON 2025: LMW Highlights the Path to a Digital & Sustainable Textile Industry

Mr. Vivek Arora, GM – Marketing & Sales (Domestic) at LMW, represented the company as a distinguished panelist at the 12th Asian Textile conference - ATEXCON 2025. This conference brings together the leading players of Global textile industry, input suppliers and service providers to deliberate on key areas of business, including regional as well as global issues concerning this sector. The Conference focused on the emerging opportunities through cross country cooperation. The prestigious event, organized by the Confederation of Indian Textile Industry (CITI) on March 25, 2025, brought together over 250 industry leaders to discuss the evolving landscape of textiles.

As part of the technical session on *"Technological Disruptions and Digitization,"* Mr. Arora shared key insights on the future of sustainable manufacturing and the role of Industry 4.0 in the Indian spinning sector. He emphasized the urgent need for modernization despite prevailing industry challenges, urging manufacturers to embrace digital transformation.

Highlighting the impact of smart manufacturing and advanced automation, he illustrated how Industry 4.0 is bridging the gap between traditional production methods and digital ecosystems. He also underscored the significance of intelligent manufacturing solutions in reshaping global supply chains, enhancing efficiency, and driving sustainability.

With a strong commitment to innovation, LMW continues to lead the way in providing cutting-edge solutions that empower the textile industry. ATEXCON 2025 served as a crucial platform for industry stakeholders to collaborate on shaping a resilient and future-ready textile sector.
