✨ “NIGF 2025: Where India’s Apparel Future Finds Its New Strength” ✨

The 3rd North India Garment Fair (NIGF 2025), organised by the Clothing Manufacturers Association of India (CMAI), concluded in New Delhi with remarkable success—an achievement that echoes the rising confidence and ambition of India’s apparel ecosystem. Held from 25–27 November at Yashobhoomi, this year’s edition not only exceeded expectations but also reinforced the fair’s growing importance as a catalyst for MSME empowerment, regional collaboration, and market expansion.

More than 125 exhibitors representing India’s leading apparel hubs—Mumbai, Surat, Jaipur, Ahmedabad, Tirupur, Ludhiana, Kolkata, and Delhi/NCR—showcased collections across menswear, womenswear, and kidswear. With over 2,800 trade buyers in attendance, NIGF 2025 emerged as a dynamic marketplace where ideas, opportunities, and partnerships flourished.

A defining highlight of this edition was the introduction of a special Tirupur Manufacturers’ Pavilion, which received an overwhelming response. This strong North–South integration reflects India’s evolving sourcing patterns and the new synergies shaping the future of garment manufacturing. Exhibitors across segments shared inspiring testimonials—celebrating strong business outcomes, unexpected buyer interest, and the invaluable exposure to new markets. Many first-time participants even reported results far exceeding their expectations.

CMAI President Santosh Katariya aptly captured the spirit of the event, emphasising how NIGF is steadily strengthening the retail supply chain while opening fresh avenues for garment manufacturers across the country. NIGF continues to reaffirm CMAI’s commitment to fueling MSME growth by creating meaningful connections and new opportunities in emerging markets.

With its expanding scale, diverse participation, and enhanced buyer–seller engagement, NIGF 2025 stands tall as a pivotal platform shaping the next phase of India’s apparel trade. As the industry moves forward with renewed energy, the fair's success reinforces a simple truth: collaboration, innovation, and regional unity are the pillars that will drive India’s garment sector toward a stronger, more vibrant future.
