KAPOOR INDUSTRIES: POWERING THE FUTURE OF PREMIUM TERRY MANUFACTURING

Inspiring Growth Through Innovation

Kapoor Industries Expands Production Capabilities with Eight Biancalani AIRO®24 Machines

Panipat, India | September 2026

In an era where quality, efficiency, and sustainability define industrial success, Kapoor Industries Limited has taken another significant step toward strengthening its position as a global leader in premium terry-product manufacturing. The company has expanded its fleet of world-class Biancalani AIRO®24 finishing machines to **eight units**, reinforcing its commitment to innovation, operational excellence, and customer satisfaction.

This milestone reflects more than an equipment upgrade. It demonstrates Kapoor Industries' long-term vision of building a technologically advanced manufacturing ecosystem capable of meeting the evolving demands of international markets.

Building Excellence from Panipat to the World

Headquartered in **Panipat, Haryana**, Kapoor Industries has earned a strong reputation as a manufacturer and exporter of premium terry products, including:

- Towels
- Bath Mats
- Rugs
- Bathrobes

With a major presence in the **United States and European markets**, the company continues to deliver products that meet the highest standards of performance, softness, durability, and sustainability.

The expansion of its AIRO®24 fleet further strengthens its ability to serve global customers with consistent quality and increased production efficiency.

The Power of Advanced Finishing Technology

At the heart of this achievement lies the **Biancalani AIRO®24**, an advanced textile-finishing system designed for drying, softening, and finishing woven, knitted, and non-woven fabrics.

Key Technology Advantages

✅ Superior softness and comfort

✅ Enhanced towel volume and loft

✅ Improved fabric stability and drape

✅ Reduced dependence on chemical softeners

✅ High-speed, efficient production

✅ Consistent finishing quality

The technology supports production speeds of up to **80 metres per minute** and evaporation capacities of up to **1,400 kg per hour**, enabling manufacturers to achieve both premium quality and operational efficiency.

A Strategic Investment in the Future

What makes this announcement particularly remarkable is that it represents **continued investment**, not a one-time machinery purchase.

The installation of eight AIRO®24 machines showcases:

Confidence in Proven Technology

Kapoor Industries has repeatedly invested in Biancalani solutions based on successful production performance and measurable results.

Commitment to Customer Expectations

International buyers increasingly require products with exceptional softness, consistency, and finishing quality. The new machines help ensure those expectations are met.

Readiness for Sustainable Growth

The enhanced finishing infrastructure provides the technological foundation needed to support future expansion in export markets.

Driving India's Home Textile Transformation

Kapoor Industries' investment reflects a broader movement across India's textile industry, where leading manufacturers are embracing:

- Automation
- Smart manufacturing
- Advanced finishing techniques
- Energy-efficient technologies
- Sustainable production practices

By staying ahead of industry trends, Kapoor Industries continues to strengthen its competitive advantage while contributing to India's growing reputation as a global textile powerhouse.

Quality with Responsibility

Growth at Kapoor Industries is supported by internationally recognized certifications and responsible manufacturing initiatives, including:

- **OEKO-TEX®**
- **MADE IN GREEN**
- **GOTS Organic**
- **Better Cotton**

These achievements demonstrate the company's dedication not only to product quality but also to environmental stewardship and responsible manufacturing practices.
